

# Humboldt Solar Neighbors Tour

Saturday, October 7  
10 am–3 pm

Arcata  
Eureka  
McKinleyville  
Sunnybrae  
Trinidad

**Humboldt County is moving towards energy independence!** In recent years, hundreds of your neighbors have improved the energy efficiency of their homes and businesses by harnessing the power of the sun to reduce their energy bills, conserve natural resources, and help protect the environment.

On **Saturday, October 7, 2006**, over 50 of your neighbors in five communities across Humboldt County will open their doors for public tours to share the latest in energy efficient buildings, energy systems and appliances.

The **FREE** 2006 Humboldt Solar Neighbors Tour will feature:

-  Energy efficiency techniques for Humboldt County residents
-  Grid-connected solar electric systems
-  Active and passive solar water heating
-  Passive solar homes
-  Daylighting
-  Ground source heat pumps
-  Renewable energy monitoring and visualization software
-  And more . . .

To better showcase the great strides Humboldt County has made towards energy sustainability, this year's tour will be neighborhood-based, with starting points in the following communities:

-  Arcata: Redwood Alliance, 1175 G Street, Suite C (upstairs)
-  Eureka: Redwood Coast Energy Authority, 517 5th Street
-  McKinleyville: 815 Aspen Court
-  Sunnybrae: 1766 Old Arcata Road
-  Trinidad: 99 Langford Drive

Free tour-guides, describing all of the homes and businesses on the tour, will be available online and at each of the tour starting points listed above.

Guided tours by solar savvy docents will also be offered. Guided tours begin at 11 am at each of the community starting points listed above.

**For more information visit [www.redwoodenergy.org](http://www.redwoodenergy.org) or call (800) 931-7232.**

**Brought to you by the Humboldt Solar Neighbors Tour Committee,  
Redwood Coast Energy Authority, and the Humboldt solar industry.**
